

Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

Product

Global Short-Dated Bond Fund Accumulation (GB0033772848)

Manufacturer: Dimensional Fund Advisors Ltd.

For more information on this product, please call +44 (0)20 3033 3300 or refer to www.dimensional.com.

The Financial Conduct Authority is responsible for supervising Dimensional Fund Advisors Ltd. in relation to this Key Information Document. The Global Short-Dated Bond Fund ("Fund") is authorised in the United Kingdom and regulated by the Financial Conduct Authority. This Fund is managed by Dimensional Fund Advisors Ltd. Dimensional Fund Advisors Ltd. is authorised in the United Kingdom and regulated by the Financial Conduct Authority. This document was produced on 18 February 2025.

What is this product?

Type:

The Fund is a sub-fund of Dimensional Funds ICVC, a UK UCITS authorised by the UK Financial Conduct Authority (and as such is not established in an EEA state in accordance with the UCITS Directive 2009/65/EC).

Term:

This Fund is open-ended.

Objectives:

The aim is to maximize income while preserving the value of investments.

The Fund is actively managed which means that the Investment Manager is actively making investment decisions for the Fund. The Fund is not managed in reference to a benchmark.

The Fund invests in high quality debt such as bonds and money market instruments with a maturity of five years or less. This debt is issued by governments, other public bodies and companies in developed countries.

The Fund may purchase debt in currencies other than sterling and, where it does so, will use financial contracts or instruments (derivatives) to manage its exposure to these currencies.

The Fund may use financial contracts or instruments (derivatives) to manage risk, reduce costs or improve returns.

Fund returns are primarily determined by the returns of the securities the Fund invests in, after fees. The performance of an investment in the Fund will be driven by the performance of the bond markets which the Fund focuses on, by the characteristics that the Fund emphasizes—such as exposure to the credit and term premiums—as well as by implementation costs.

Income is not distributed and is rolled up (accumulated) into the value of your investment.

You may sell your investment in the Fund on demand on a daily basis.

Additional Information: We are required to provide you with further documentation and copies of the prospectus (which includes additional information relating to your investment), the latest annual reports and subsequent half-yearly reports (all in English). This and other information (including the latest share prices) are available free of charge at www.dimensional.com.

Depository: State Street Trustees Limited.

Intended retail investor:

The Fund is suitable for investors seeking to maintain long-term total return. It is recommended the Fund should be purchased with advice, but it is also suitable for retail investors with a basic knowledge of financial investments who can purchase the Fund on an execution only basis. As the Fund's investment return is not guaranteed, investors must be able to bear loss of capital.

What are the risks and what could I get in return?

Risk Indicator

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level and poor market conditions are very unlikely to impact the value of your investment.

Additional risks may include loss of principal and fluctuating value. For more detail about the risks related to this product, please see the prospectus available at www.dimensional.com.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Global Short-Dated Bond Fund over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Recommended Holding Period: 3 years			
Investment: GBP 10,000			
Scenarios You could lose some or all of your investment.		If you exit after 1 year	If you exit after 3 years (recommended holding period)
Stress	What you might get back after costs Average return each year	9,000 GBP -10.03%	8,950 GBP -3.63%
Unfavourable¹	What you might get back after costs Average return each year	9,100 GBP -9.01%	9,140 GBP -2.94%
Moderate²	What you might get back after costs Average return each year	10,080 GBP 0.81%	10,190 GBP 0.63%
Favourable³	What you might get back after costs Average return each year	10,540 GBP 5.38%	10,480 GBP 1.58%

¹ This type of scenario occurred for an investment between September 2019 and September 2022.

² This type of scenario occurred for an investment between December 2018 and December 2021.

³ This type of scenario occurred for an investment between July 2018 and July 2021.

What happens if Dimensional Fund Advisors Ltd. is unable to pay out?

The assets of the Fund are held in safekeeping by its depositary, State Street Trustees Limited. In the event of the insolvency of Dimensional Fund Advisors Ltd., the Fund's assets in the safekeeping of the depositary will not be affected. However, in the event of the depositary's insolvency, or someone acting on its behalf, the Fund may suffer a financial loss. The risk is mitigated to a certain extent by the fact the depositary is required by law and regulation to segregate its own assets from the assets of the Fund. The depositary will also be liable to the Fund and the investors for any loss arising from, among other things, its negligence, fraud, or intentional failure to properly fulfill its obligations (subject to certain limitations). There is no compensation or guarantee scheme protecting you from a default of the Fund's depositary.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed, in the first year you would get back the amount that you invested (0 % annual return). For the other holding period, we have assumed the fund performs as shown in the moderate scenario and the investment is GBP 10,000.

Investment: GBP 10,000	If you exit after 1 year	If you exit after 3 years
Total costs	25 GBP	76 GBP
Annual cost impact (*)	0.3%	0.3%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 0.9% before costs and 0.6% after costs.

The illustration is produced using a required methodology (which includes using data from an appropriate proxy where there is insufficient historical data available for the Fund) and provides only a projection, such that it may not accurately predict what the actual annual costs and returns of the Fund will be.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee.	0 GBP
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	0 GBP
Ongoing costs taken each year		If you exit after 1 year
Management fees and other administrative or operating costs	0.3% of the value of your investment per year. This is an estimate based on actual costs over the last year.	25 GBP
Transaction costs	0.0% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	0 GBP
Incidental costs taken under specific conditions		If you exit after 1 year
Performance fees	There is no performance fee for this product.	0 GBP

How long should I hold it and can I take money out early?**Recommended holding period: 3 years**

As the Fund is intended for long-term investors, we recommend that you hold this investment for at least 3 years based on the investment policy of the Fund.

You can request to take out some or all of your money at any time. You can typically request to buy or sell shares in the Fund on any Business Day (as set out in the Fund's prospectus).

If you cash in at an early stage this will increase the risk of lower investment returns or a loss.

How can I complain?

If you have any complaints, please contact the Compliance Officer. Complaints can be lodged via the following methods:

i. Phone: +44 (0)20 3033 3300

ii. E-mail: complaints@dimensional.com

iii. Mail: Dimensional Fund Advisors Ltd. 20 Triton Street, Regent's Place, London NW1 3BF, United Kingdom

iv. Online: <https://www.dimensional.com/legal-document-centre-for-investors>

Other relevant information

Past Performance & Performance Scenarios: Please visit <https://www.dimensional.com/PRIIPS-Performance> to view the fund's historical performance and previous performance scenarios. Any past performance data presented will be for up to 10 calendar years from the date of the launch of a share class. No performance data will be presented for a share class that does not yet have performance data for one complete calendar year as there would be insufficient data to provide a useful indication of past performance to retail investors.

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Global Short-Dated Bond Fund

Share Class: Accumulation (ISIN: GB0033772848)

a sub fund of Dimensional Funds ICVC. This Fund is managed by Dimensional Fund Advisors Ltd.

Objectives & Investment Policy

The aim is to maximize income while preserving the value of investments.

The Fund is actively managed which means that the Investment Manager is actively making investment decisions for the Fund. The Fund is not managed in reference to a benchmark.

The Fund invests in high quality debt such as bonds and money market instruments with a maturity of five years or less. This debt is issued by governments, other public bodies and companies in developed countries.

The Fund may purchase debt in currencies other than sterling and, where it does so, will use financial contracts or instruments (derivatives) to manage its exposure to these currencies.

The Fund may use financial contracts or instruments (derivatives) to manage risk, reduce costs or improve returns.

Income is not distributed and is rolled up (accumulated) into the value of your investment.

You may sell your investment in the Fund on demand on a daily basis.

Risk and Reward Profile

The risk and reward category is calculated using historical data which may not be a reliable indicator of the Fund's future risk profile.

The risk and reward category may shift over time and is not a target or a guarantee.

The lowest category (i.e. Category 1) does not mean a risk-free investment.

The Fund is in Category 2 because of the low range and frequency of price movements (volatility) of the underlying investments referenced by the Fund.

The following are additional risks not covered by the risk and reward category.

The Fund may invest up to 10% of its assets in other underlying funds. The Fund's performance, costs and risks will be affected by the underlying funds. There can be no assurance that an underlying fund will achieve its investment objective. The Fund may invest in tradeable debt (bonds), the return on which depends on the issuer's ability or willingness to make its payments. There is a risk that the issuer will fail to do so. Although the Fund generally invests in bonds with high ratings, these ratings are subjective and a high rating does not guarantee an issuer's ability or willingness to pay. Bonds are interest rate sensitive, meaning that the range and frequency of price movements of the bonds may be significant due to various factors, including changes in interest rates, the creditworthiness of the bond issuer and the ease with which similar investments may be bought or sold (liquidity).

The Fund will use financial contracts (known as derivatives) for various reasons, including to try to reduce the effect of currency fluctuations between the currency of its assets and the base currency of the Fund, or to reduce the effect of market or interest rate movements (known as hedging).

The effectiveness of any hedging strategy is not guaranteed to succeed and may prevent the Fund from benefitting from an increase in value of a particular currency. Derivatives can be a risky asset. They can be subject to risks such as counterparty, liquidity, interest rate, market, credit and management risks and improper valuation. The Fund, in turn, may be affected by this and the share price may fluctuate, which may result in a loss to the Fund.

The Fund may enter into various financial contracts (derivatives) with another party. There is a risk that this party will become insolvent or fail to make its payments which may result in the Fund and your investment suffering a loss. Where the Fund uses futures or forward foreign currency contracts (derivatives), it may become exposed to certain investment risks including leverage, market, mismatching of exposure and/or counterparty risk, liquidity, interest rate, credit and management risks and the risk of improper valuation. While the Fund is not expected to have exposure to leverage to a material degree, any movement in the price of these investments can have a significant impact on the value of the Fund and the Fund could lose more than the amount invested.

More information in relation to risks in general may be found in the "Risk Factors" section of the prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
This is the maximum that might be taken out of your money before it is invested (entry charge) and before the proceeds of your investment are paid out (exit charge).	
Charges taken from the Fund over a year	
Ongoing charges	0.25%
Charges taken from the Fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are maximum figures. In some cases you might pay less, you can find this out from your financial adviser or distributor.

The ongoing charges figure is based on expenses for the year ending December 2024. It may vary from year to year. It excludes portfolio transaction costs and performance fees, if any.

More detailed charges information may be found in the "Fees and Expenses" section of the prospectus.

No conversion fee will be charged by the Fund or the investment manager.

Past Performance

Please be aware that past performance is not a reliable indicator of future results.

The fees for the ongoing Fund charges are included in the calculation of past performance. The entry/exit fees are excluded from the calculation of past performance.

The Fund was launched in 2004 and the share class was launched in 2004.

Past performance has been calculated in GBP.

Practical Information

The depositary is State Street Trustees Limited.

Copies of the prospectus (which includes additional information relating to your investment), the latest annual reports and subsequent half-yearly reports (all in English), as well as other information (including the latest share prices) are available free of charge at www.dimensionalfund.com.
