## WORKING WITH YOU

We've built a successful and valued relationship with PwC and support a select group of your international clients with their UK audit, tax and associated compliance work.

We've helped Mid-market businesses on their annual audits, tax structuring and returns. Our specialism is working with UK-based and multinational businesses up to £200m turnover. Our depth of experience, resource and strategic focus continues to make us a great choice to deliver high quality compliance work in the UK.

We are keen to continue to grow our relationship with you, supporting you and your clients with their requirements through a service that represents trust, quality and value.

As a firm, we invest heavily in our people and resources ensuring we can continue to support your international clients with their UK requirements.

We have provided a snapshot of the firm and areas we can help with in this document but we are always happy to discuss individual clients or areas you may need help with so please reach out to us directly.

Thank you and we look forward to continuing our working relationship.

Kind regards

*Steve & Neil*

## BUILDING TRUSTED RELATIONSHIPS. AT HOME & ABROAD

We're proud to have developed strong, valued relationships with Big 4 firms across the globe, supporting their clients with UK audit, tax, and wider compliance needs.

Our focus is on making life easier for you and your clients. By partnering with us, you'll have a UK team that's large, experienced, and agile. We help to reduce the time, cost, and complexity that often comes with managing UK subsidiary audits from overseas. It means smoother delivery for your clients in the UK, while you continue to protect and strengthen your relationship with the parent company.

We work with a wide range of mid-market and multinational businesses across sectors, delivering annual audits, tax structuring, and associated compliance work. And because we're not weighed down by the same layers of red tape, we can often provide a faster, more flexible, and more cost-effective service here in the UK.

### THE STRENGTH OF OUR AUDIT TEAM SPEAKS FOR ITSELF

We invest heavily in our people, technology, and training to ensure we keep delivering market-leading quality and value for international clients.

This pack gives you a snapshot of who we are and how we can help, but every client has unique needs. We'd be delighted to discuss specific opportunities with you and explore how we can strengthen our partnership.

Thanks for taking the time to get to know us.

# OUR AUDIT TEAM. A SINGLE-MINDED APPROACH

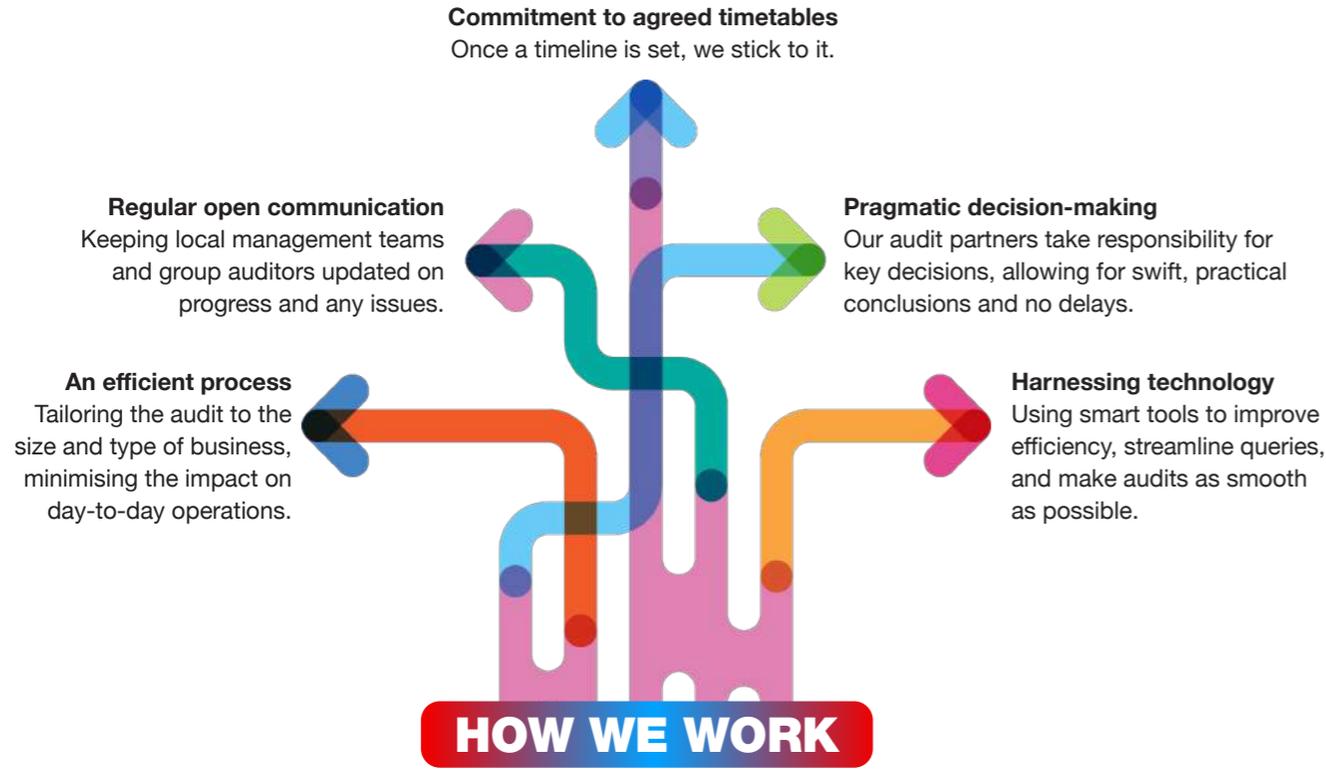

## AUDIT EXPERTISE YOU CAN RELY ON

We have extensive experience delivering the UK element of large international group audits.

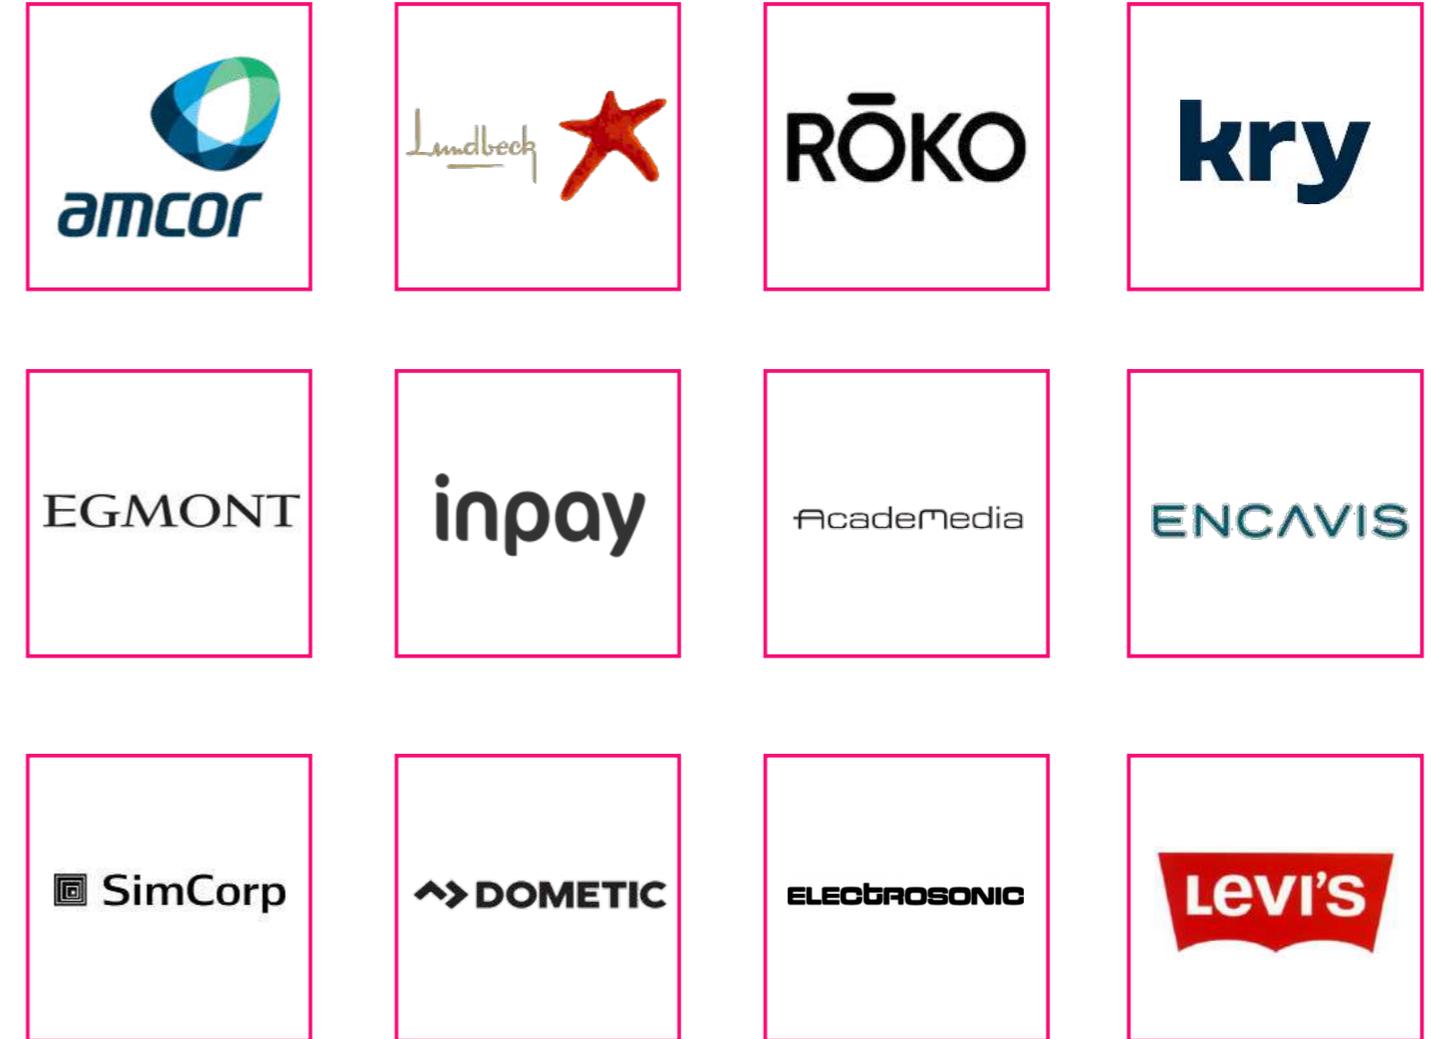

Our 700-strong, award-winning audit team specialises in working with UK subsidiaries of multinational businesses, as well as privately owned UK companies, PE-backed businesses, and small to mid-cap businesses listed on the AIM London Stock Exchange.

Our expertise spans a wide range of sectors, including manufacturing, logistics, retail, healthcare, technology, financial services, digital assets, and fintech.

We're experts in the latest UK accountancy and audit standards, and we also work seamlessly to international auditing standards - ensuring your UK subsidiaries' compliance is watertight, consistent, and aligned with global expectations. As part of every audit, we look for opportunities to make businesses more efficient, adding value beyond compliance.

# OUR CLIENTS. HOW IT'S WORKING IN PRACTICE

# YOUR TAX COMPLIANCE & ADVISORY PARTNER

## SUPPORTING UK SUBSIDIARIES WITH CONFIDENCE

We work with a wide range of large multinational groups with subsidiaries in the UK, helping them stay compliant while adding real value through clear, practical tax advice.

Our 200+ strong tax team includes senior advisors who specialise in working with multinationals, bringing deep experience of the typical tax challenges faced by international groups operating in the UK.

At the core, we know what matters most:

- Managing tax risk
- Mitigating UK corporation tax liability

Our role is to navigate the complexity of UK tax rules, from domestic legislation to cross-border transactions - and explain the options in plain English. We highlight risks and opportunities so that businesses can make informed, commercial decisions with a clear understanding of UK tax costs and mitigation strategies.

## OUR APPROACH

Our aim is simple: to give multinational groups confidence that their UK tax obligations are handled efficiently, while providing clarity and solutions that support their broader business goals.

# EFFICIENT. FLEXIBLE. OUTSOURCED.

## HOW WE SUPPORT UK SUBSIDIARIES

We work with a wide range of international groups with subsidiaries in the UK, from companies breaching the audit threshold for the first time, to large listed multinationals. Wherever your clients are on their journey, we provide the finance support they need to stay compliant, efficient, and confident.

## TAILORED SUPPORT, NOT ONE-SIZE-FITS-ALL

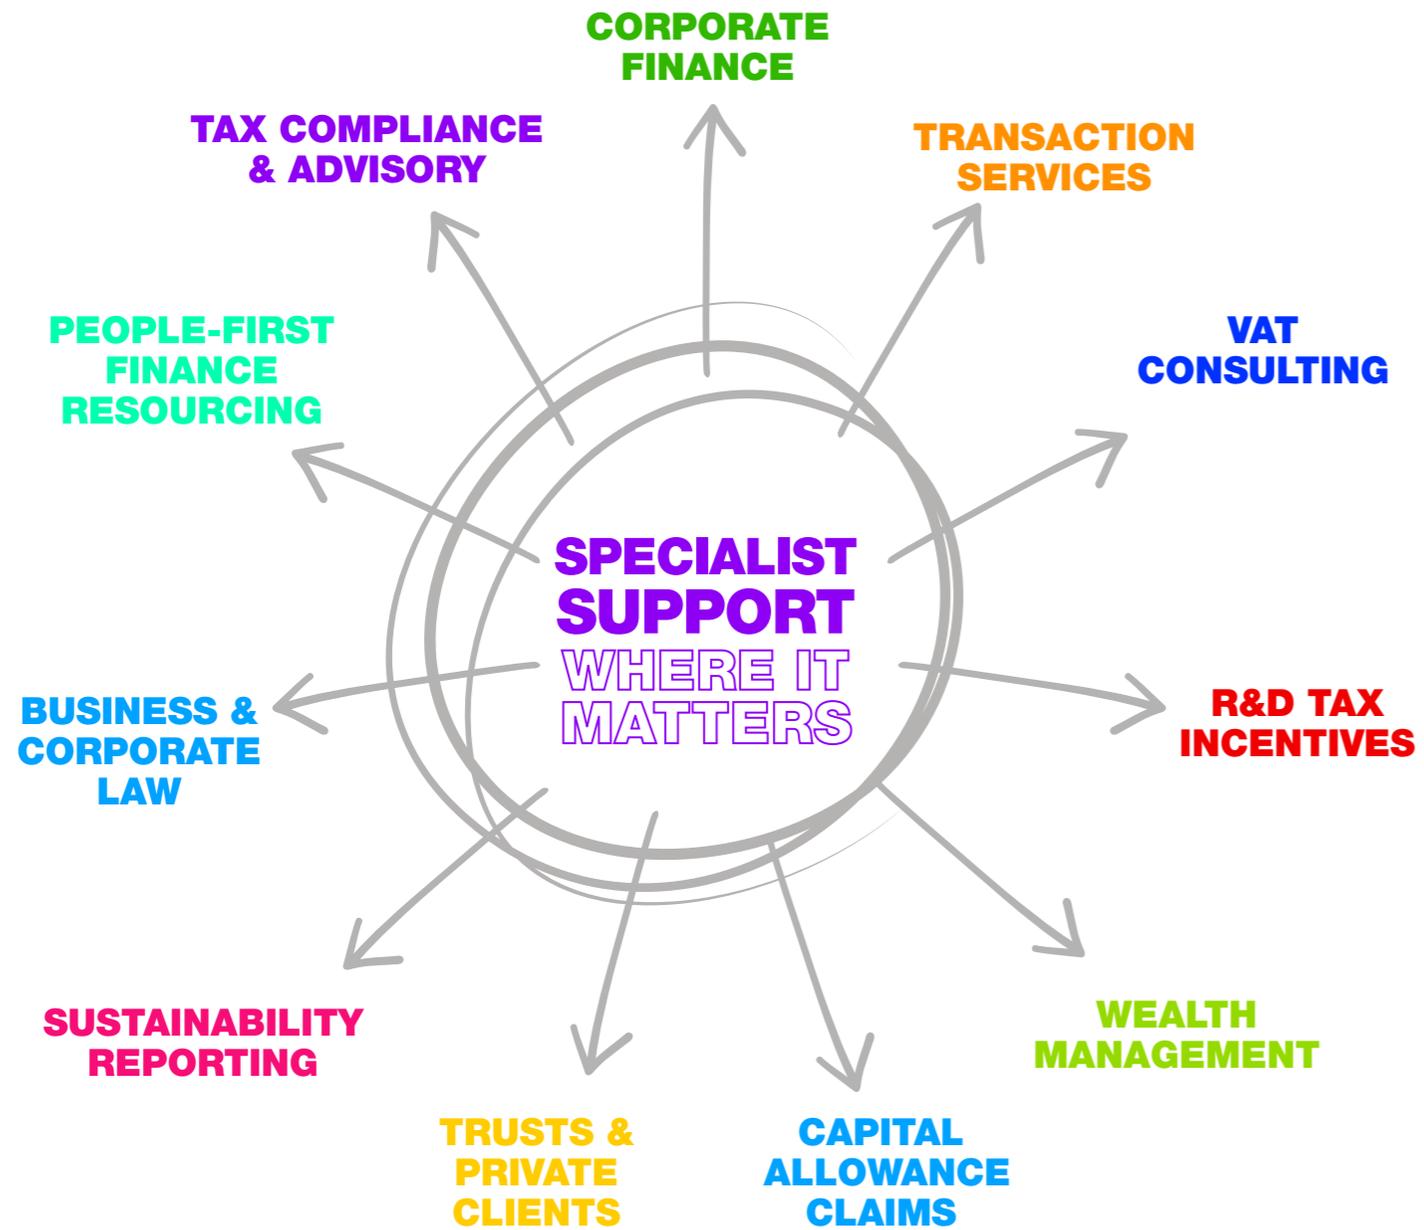

Every business is different. That's why we offer a flexible menu of services. From taking the pain out of annual compliance requirements, to acting as an extension of the finance function when extra resource or technical expertise is needed. Our approach is designed to fit seamlessly around the needs of each business.

## YOUR OUTSOURCED UK FINANCE TEAM

UK statutory and regulatory requirements can feel complex and overwhelming for groups without UK experience. That's where we step in. Acting as an outsourced, "on-the-ground" finance team, we ensure subsidiaries meet all their UK compliance and reporting obligations with ease.

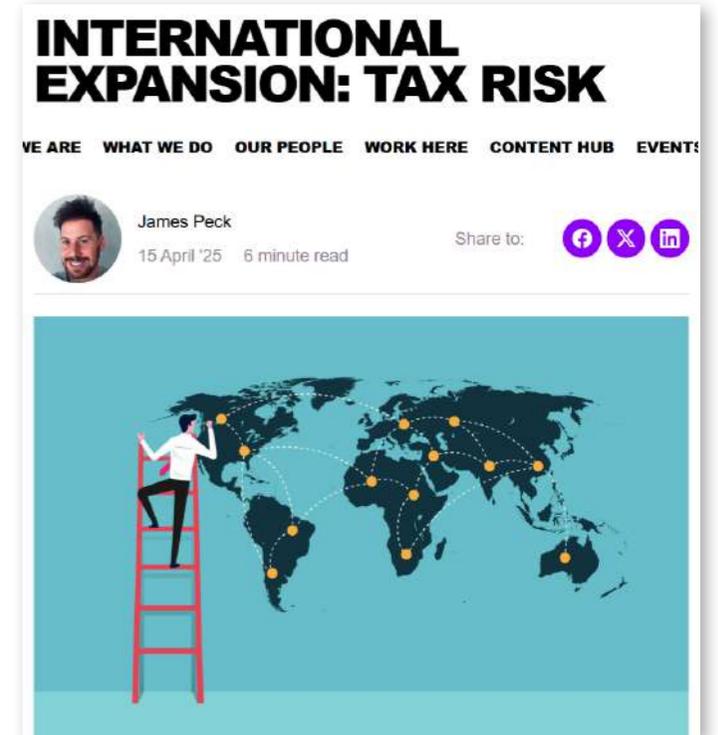

Our support covers a broad range of areas that can be tailored to each client's needs, giving peace of mind that their UK finance requirements are in safe hands.

## WE HEAR YOU

Working with our Transatlantic friends is what we do. Here's just a flavour of what we've been up to recently.
